CLAY ROOF TILES

TOP TELHA from Brazil is pleased to introduce new finishes to its traditional clay roof tiles: **Terracota Plus**, **Terracota Max** and **Terracota Class**.

Terracota Plus is now smoother to the touch with the same perfect fit, besides being water repellent treated.

Terracota Max joins the same beauty of **Terracota Plus** with a higher gloss due to its acrylic coating finish.

Terracota Class has the same gloss coating found in **Terracota Max** with a deeper orange color.
